

Euro-centric Standards Compliance Product Label

Model: OR_Apocalypse Type IV iCCR

Date: DDMMYYYY

Serial: YYYY ZZZZ

An Open Revolution™ Rebreather

CE 0086

The CE mark is in respect of design type certification by SGS United Kingdom Ltd in full compliance with:

**PPE Directive 89/686/EEC,
EN 14143:2003 (Corrected)***

Functional Safety processes affecting this equipment are certified by SIRA Certification Ltd. The apparatus is certified to be in full compliance with those processes to:

**Functional Safety Standard
EN 61508:2004 Safety Integrity Level 3**

This equipment has also been independently tested and found to comply with:

**NORSOK U101:1999
NATO STANAG 1410:2006**

(*) “Compliance with EN 14143:2003 is inclusive of the correction of the two errors in the standard accepted by CEN TC 79 / SC7, namely Table 1 contains lung centroid values not suprasternal notch valves as marked, and the DSV access safety requirement is incorrectly stated in the standard as a non-relevant maximum hose stretch. The corrections to Table 1 and hose stretch requirements are as per prEN14143:2010. This text is in the same size as the compliance statement above.
